Clinical Posting Time Table MBBS 2nd Phase (Batch 2021) 2 Week Rotation

Date-25.01.2023

Date	A	B	C	D	E	F
27.01.2023 To 14.02.2023	Medicine	Surgery	Obs/Gynae	Community Medicine	Pulmonary Medicine	Ophthalmology
15.02.2023 To 28.02.2023	Ophthalmology	Medicine	Surgery	Obs/Gynae	Community Medicine	Pulmonary Medicine
01.03.2023 To 14.03.2023	Pulmonary Medicine	Ophthalmology	Medicine	Surgery	Obs/Gynae	Community Medicine
15.03.2023 To 28.03.2023	Community Medicine	Pulmonary Medicine	Ophthalmology	Medicine	Surgery	Obs/Gynae
29.03.2023 To 11.04.2023	Obs/Gynae	Community Medicine	Pulmonary Medicine	Ophthalmology	Medicine	Surgery
12.04.2023 To 25.04.2023	Surgery	Obs/Gynae	Community Medicine	Pulmonary Medicine	Ophthalmology	Medicine
26.04.2023 To 30.04.2023	Medicine	Surgery	Obs/Gynae	Community Medicine	Dermatology	ENT
1st Sessional Examinations						
10.05.2023 To 18.05.2023	Medicine	Surgery	Obs/Gynae	Comm. Medicine	Dermatology	ENT
19.05.2023 To 01.06.2023	ENT	Medicine	Surgery	Obs/Gynae	Comm. Medicine	Dermatology
02.06.2023 To 16.06.2023	Dermatology	ENT	Medicine	Surgery	Obs/Gynae	Comm. Medicine
17.06.2023 To 30.06.2023	Comm. Medicine	Dermatology	ENT	Medicine	Surgery	Obs/Gynae
01.07.2023 To 14.07.2023	Obs/Gynae	Comm. Medicine	Dermatology	ENT	Medicine	Surgery
15.07.2023 To 28.07.2023	Surgery	Obs/Gynae	Comm. Medicine	Dermatology	ENT	Medicine
29.07.2023 To 11.08.2023	Medicine	Orthopedics	Obs/Gynae	Pediatrics	Psychiatry	Radiodiagnosis
12.08.2023 To 19.08.2023	Radiodiagnosis	Medicine	Orthopedics	Obs/Gynae	Pediatrics	Psychiatry
2nd Sessional Examinations						
29.08.2023 To 05.09.2023	Radiodiagnosis	Medicine	Orthopedics	Obs/Gynae	Pediatrics	Psychiatry
06.09.2023 To 20.09.2023	Psychiatry	Radiodiagnosis	Medicine	Orthopedics	Obs/Gynae	Pediatrics
21.09.2023 To 05.10.2023	Pediatrics	Psychiatry	Radiodiagnosis	Medicine	Orthopedics	Obs/Gynae
06.10.2023 To 21.10.2023	Obs/Gynae	Pediatrics	Psychiatry	Radiodiagnosis	Medicine	Orthopedics
22.10.2023 To 13.11.2023	Orthopedics	Obs/Gynae	Pediatrics	Psychiatry	Radiodiagnosis	Medicine

Batches:-

A-Roll No. 1301-1325

B-Roll No. 1326-1350

C-Roll No. 1351-1375

D-Roll No. 1376-1400

E-Roll No. 1401-1425

F-Roll No. 1426-1450

Time Table						
2nd Prof. (3rd, 4th & 5th Semester)						
Every 1st, 3rd & 5th Saturday-Sports (08-09AM), 2nd Saturday Medicine (08-09am), 4th Saturday Surgery (08-09am). Every Saturday, Clinical Posting (09-11am)						
Days	08-11AM	11-12AM	12-01PM		2-3PM PRACTICAL	3-4PM
01/03/2021 Monday	Clinical Posting, Surgery, Medicine, Obs & G	Causes, mechanisms, types and effects of cell injury & their clinical significance, PA.2.1,2.2	(PH 1.1) To Define the following terms: pharmacology, pharmacodynamics, pharmacokinetics, pharmacotherapy, drug & essential drugs.Trace developments in the discipline of Pharmacology since ancient period. Enlist various branches of pharmacology. Enlist sources of drug information	Lunch	BATCH A Departmental Orientation PA.1.1	BATCH A Departmental Orientation PA.1.1
				Lunch	BATCH B Departmental Orientation	BATCH B Departmental Orientation
02/03/2021 Tuesday		(PH 1.4) Part I Define Absorption. Describe various biotransport mechanisms. Describe the factors that govern the absorption of drugs. Define bioavailability and bioequivalence	Introduction and History MI 1.1	Lunch	BATCH B Departmental Orientation PA.1.1	BATCH B Departmental Orientation PA.1.1
				Lunch	BATCH B Departmental Orientation	BATCH B Departmental Orientation

06/03/2021 Saturday	08-09AM Sport	Introduction to Surgery - Surgical history, Clinical examination, and Broad overview of diagnostic investigations SU 9.1	Basic of forensic medicine along with its history FM 1.1 - 1.2	Lunch	BATCH B Common definitions & terms used in Pathology, History & evolution of Pathology PA.1.2,1.3	
	09-11AM Clinical Posting				Lunch	BATCH B (PH 2.1) Identify various dosage forms List the steps for using some topical dosage forms eg., inhaler with spacer, eye drops, vaginal pessaries. State important directives to be written on the label for skin preparation i.e, lotion, liniment, ointment etc. Demonstrate how to use an inhaler (with or without spacer to a simulated patient
08/03/2021 Monday		Pathologic calcifications, gangrene, Intracellular accumulation, pigments PA.2.5,2.3	(PH 1.4) Part III Define Volume of Distribution and its implication in therapeutics. Describe the various factors that affect drug distribution. Explain the process of redistribution of drugs with suitable examples	Lunch		BATCH A Cellular adaptation (SGD) PA.2.6
					Lunch	BATCH B PH 2.2 To prepare & dispense ORS. To explain correct procedure to prepare ORS. To explain precautions required in preparation of ORS. To list pitfalls in preparations of ORS. To list precautions required during preparation, storage of ORS To communicate to the patient/family on how and when to take ORS. To explain how to prepare ORS from home ingredients
		(PH 1.4) Part IV Define the term Biotransformation.	Morphology of Bacteria, Morphology of common bacteria MI 1.1	Lunch		BATCH B Cellular adaptation (SGD) PA.2.6

15/03/2021 Monday		Acute & Chronic Inflammation PA.4.1	(PH 1.4) Part V List various routes for excretion of drugs with examples. Describe the role of kidney & liver in excretion of drugs. List factors affecting excretion. Define various pharmacokinetics parameters. Explain the difference between first-order and zero-order kinetics of drug elimination with examples. Describe the concept of steady-state with regard to plasma drug concentrations. Differentiate between loading dose and maintenance dose & state pharmacokinetic parameters that determine them. Enumerate strategies to prolong drug action with suitable examples	Lunch	BATCH A Intracellular accumulation of Carbohydrates,pigments PA 2.3(SGD-Tutorial)	BATCH A Intracellular accumulation of Carbohydrates,pigments PA 2.3 (Practical)
				Lunch	Batch B PH 2.3 To calculate the infusion rate of IV fluids. Enlist IV fluids. To list indications, precautions and contraindication of different IV Fluids	
16/03/2021 Tuesday		(PH 1.5) Part I State different mechanisms by which a drug acts giving an example of each. Define the term pharmacodynamics. Distinguish between Drug effect & drug action. Enumerate different kinds of receptor & non-receptor mediated mechanism of action of drugs. Describe non-receptor mediated drug mechanisms of action with	Immunity (Innate & Acquired) MI 1.7, PA 9.1, IM 25.1	Lunch	BATCH B Intracellular accumulation of Carbohydrates,pigments PA 2.3(SGD-Tutorial)	BATCH B Intracellular accumulation of Carbohydrates,pigments PA 2.3 (Practical)
				Lunch	Batch B PH 2.3 To calculate the infusion rate of IV fluids. Enlist IV fluids. To list indications, precautions and contraindication of different IV Fluids

20/03/2021 Saturday		Wounds - Tissue repair and Scars - Hypertrophic scars and Keloids SU 5.2,5.3	Concept of Health and Disease CM1.1 CM1.2	Lunch	BATCH B General features of acute and chronic inflammation including stimuli, vascular and cellular events, mediators of acute inflammation PA.4.1 & 4.2 (SGD-Tutorial)	BATCH B Acute inflammation in gross & microscopic specimens PA.4.4 (Practical)
					Batch B PH 4.1 To administer drugs through IM & IV routes in a simulated environment using mannequins	
22/03/2021 Monday		Chronic Inflammation PA.4.3	(PH 1.5) Part III Describe the different mechanisms of receptor and non-receptor mediated drug antagonisms with examples. Describe desensitization, tachyphylaxis, tolerance and resistance. Explain the mechanisms that underlie such phenomena. Explain therapeutic index and therapeutic window with examples. Enumerate factors modifying drug response	Lunch	BATCH A Abnormal urinary findings in disease states and common urinary abnormalities in a clinical specimen PA.23.1(Practical)	
						Batch B PH 4.2 Demonstrate the effects of vasopressor drugs with appropriate blockers on blood pressure using computer aided learning
23/03/2021 Tuesday		(PH 1.6) Part I, 1.7 Define Adverse Drug reaction(ADR) & Adverse drug events. Classify different types of Adverse Drug reactions. Describe the differences between type A and type B adverse drug reactions. Describe the protocol for treatment of poisoning. Discuss the different kinds of drug-drug interactions	Antibody Structure, Immunoglobulin Classes, Abnormal Immunoglobulin, Antibody Diversity & Class switching MI 1.8 <i>Ganesh</i> Dean	Lunch	BATCH B Abnormal urinary findings in disease states and common urinary abnormalities in a clinical specimen PA.23.1(Practical)	
						Batch B PH 4.2 Demonstrate the effects of vasopressor drugs with appropriate blockers on blood pressure using computer aided learning
